

# C2<sup>®</sup>/C3<sup>™</sup> Cleaning Companions

ITEM	DESCRIPTION	PACK
<b>HILLYARD CLEANING COMPANION SERIES — The Ultimate In Touch-Free Cleaning</b>		

Manual cleaning is hard work — bending, reaching and scrubbing. That's why so many surfaces rarely get the thorough cleaning they need, creating the perfect breeding ground for odor-causing bacteria. The Hillyard Cleaning Companions make cleaning easy — everyday! Surfaces in the bathrooms, like the undersides of fixtures, partitions and grout lines will finally get the attention they deserve.

### A. C2<sup>®</sup> CLEANING COMPANION

The compact, battery operated C2<sup>®</sup> is a self-contained, touch-free cleaning system that can save significant time and money. Apply chemical with the moderate pressure wand or for extreme soils, use the convenient onboard brush to break soil loose. Turn the switch to rinse mode to rinse with water, and then, simply squeegee the water down the drain with the onboard squeegee. The C2<sup>®</sup> is versatile and can also be used to apply carpet pre-spray, and clean shower rooms, and kitchens.
