

HILLYARD SHOWER ROOM CLEANER

One-Step Cleaner/Disinfectant

Cleans and Disinfects Restrooms and Showers

Shower Room Cleaner is a foaming, hospital-grade cleaner disinfectant that has been fortified with mild acid cleaners for cleaning ceramic tile, quarry tile, porcelain, grout, fiberglass partitions, toilets, sinks, urinals, and fixtures in restrooms and showers. Unlike a typical two-step process that requires one product to clean and one product to disinfect, Shower Room Cleaner combines both attributes into one product to save time and labor in the shower cleaning process.

Foams Away Soap Film and Hard Water Buildups

Shower Room Cleaner was specially formulated to foam away soap film, body oils, urinary salts, and built-up hard water deposits. Its special blend of detergents and mild acid cleaners clings to vertical surfaces for fast and thorough cleaning. Use with a foaming applicator for optimum performance.

Disinfects...Even in Hard Water

Shower Room Cleaner is a proven, one-step disinfectant/cleaner effective in water up to 400 ppm hardness and in the presence of 5% serum contamination. It controls odor-causing organisms and leaves a pleasant mint fragrance that leaves surfaces clean and sanitary. Shower Room Cleaner is conveniently packaged in one gallon containers. Ask your Hillyard consultant about the benefits of cleaning and disinfecting with Shower Room Cleaner. Just another example of high quality from Hillyard.

Alkyl (C ₁₄ 50%, C ₁₂ 40%, C ₁₆ 10%) dimethyl benzyl ammonium chloride	1.00%
Inert Ingredients:	97.50%
Total:	100.00%

EPA Reg. No. 6836-86-1658

EPA Est. No. 1658-MO-1

Virucide*, Sanitizer, Mildewstat, Deodorizer With Organic Soil Tolerance Plus Disinfectant Hard Water Tolerance at 4 oz. per gallon (400 ppm calculated as CaCO₃ for Hospital, Institutional, Industrial Use. *Virucidal against HIV-1 (AIDS Virus) and Herpes Simplex Types 1&2. Effective as a disinfectant against Pseudomonas aeruginosa, Staphylococcus aureus and Streptococcus pyogenes. Quickly removes soap scum from shower tile, fiberglass, chrome and glass, toilet bowls, sinks, tubs & spas. Contains no phosphates.

Use Shower Room Cleaner in hospitals, nursing homes, institutional facilities, public restrooms, schools, colleges, shower and bath areas, exercise facilities.

Use Shower Room Cleaner on washable hard nonporous surfaces: floors, walls, bathtubs, shower stalls, shower walls, glass shower doors, tubs and glazed tiles, urinals, toilets, toilet bowls, toilet bowl surfaces, chrome fixtures, other bathroom fixtures, and hard nonporous surfaces made of metal, stainless steel, chrome, glazed porcelain, glazed ceramic, fiberglass and plastic. Note: Some older tubs or sinks may be etched or discolored by Shower Room Cleaner. Test on a small hidden area first. Do not use on decorative brass fixtures, polished aluminum, natural or synthetic marble. Do not place container on Formica®.

Shower Room Cleaner is a Hospital disinfectant, bactericidal at 1:32 dilution (4 oz. per gallon of water) according to the AOAC Use-Dilution Test Method, modified in the presence of 400 ppm hard water plus 5% organic serum against Pseudomonas aeruginosa, Salmonella choleraesuis, Staphylococcus aureus.

PELIGRO: Si no sabe el ingles, solicite instrucciones a su supervisor antes de usar este producto.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PREPARATION OF DISINFECTANT USE-SOLUTION: Add 4 oz. per gallon of water (for 400-ppm water hardness).

DISINFECTION DIRECTIONS: Apply recommended use-solution with a cloth, mop, sponge, or sprayer or by soaking until surfaces are thoroughly wet. Treated surfaces must remain wet for 10 minutes. Wipe dry with a clean cloth or sponge or let air dry. For sprayer applications, use a coarse spray device. Spray with quick full strokes 6 – 8 inches from surface. Rub with a brush, sponge or cloth. Do not breathe spray. After use, close nozzle. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or more often if use solution becomes diluted or soiled.

Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before use. This product should not be used to clean utensils, glassware and dishes.

This product is not for use on medical device surfaces.

***VIRUCIDAL DIRECTIONS:** Follow Disinfection Directions. Treated surfaces must remain wet for 1 minute.

MOLD AND MILDEW CONTROL DIRECTIONS: Add 4 oz. per gallon of water to inhibit the growth of mold and mildew and their odors on hard, nonporous surfaces. Thoroughly wet all treated surfaces completely. Let air dry. Repeat application weekly or when growth or odor reappears.
