

Gym Line Graphic Arts Paint

Specially formulated oil-based paints. The brilliant colors brush on easily and level out smoothly. Do not substitute line paints.

Features & Benefits

- Color brushes on easily.
- Six standard colors are kept ready and in stock.
- Over 150 colors are available made-to-order.

Directions

FOR PROFESSIONAL AND INDUSTRIAL APPLICATION ONLY

DO NOT THIN

PREPARATION: Proper floor preparation and adherence to label directions are critical for successful results. After the floor has been sealed, abrade entire floor with maroon pads (250 sq. ft. per side of pad). Tack the floor with Hillyard Court Prep®. Lay marking tape (Hillyard item MIN212 marking tape is recommended) according to official game measurements. Roll or rub inside edges firmly to prevent paint creeping under the tape. For retouching or re-marking old floors, consult your Hillyard representative.

Application: MIX THOROUGHLY UNTIL UNIFORM. Apply a thin, uniform coat with a foam brush or synthetic applicator. If the paint is applied by roller, feather using a synthetic pad to ensure a smooth appearance. Allow the paint to dry at least one hour before removing the tape. Turn on the exhaust system two to four hours after painting. After the paint has dried at least 24 hours, abrade entire floor with maroon pads under a single brush floor machine. If paint dries longer than 48 hours, abrade the entire floor with 150-120 grit discs. Tack before applying finish.

NOTE: If after abrading, the floor sits for longer than 24 hours before being painted, re-abrade and tack before painting to prevent peeling from occurring.

ATTENTION! Best results are obtained with adequate ventilation and floor temperatures above 60°F (16°C). Avoid direct drafts on floor while painting. Do not store part-full containers of material for long periods of time. Do not pour unused material back into container. Emptied containers may retain hazardous residue and explosive vapors. Keep away from heat, sparks and flames. Do not cut, puncture or weld on or near this container. Follow label warnings until container is thoroughly cleaned or destroyed. Brushes can be cleaned with Hillyard Kleen-Up solvent.

Safety

See material safety data sheet and product label for safety information, handling and proper use.
