

CARPET

PREVENTIVE MAINTENANCE

A. Spot Removal

Refer to the Hillyard [CARPET SOLUTIONS SPOTTING CHART](#) for proper product selection. Apply product directly to the spot. Agitate spot from the outside edge to the center using a bone scraper or other smooth edged instrument, such as a spoon. Blot and rinse after applying each cleaning product.

INTERIM CLEANING

A. Bonnet Cleaning

Dilute Hillyard DEEP ACTION® with water at 1:6 (20 oz. per gallon). Apply uniform mist with shoulder sprayer. Clean carpet with DEEP ACTION bonnet under single brush floor machine. Change and clean bonnets as they become dirty.

B. Light Extraction

Mix Hillyard CARPET PRE-SPRAY at 1:64 (2 oz. per gallon) in a pump up sprayer. Pre spray approximately 200 sq. ft. of carpet. Extract with clean hot water not to exceed 150 degrees. Allow carpet to dry thoroughly before opening to traffic.

DEEP CLEANING

A. Extraction

Mix CARPET PRE-SPRAY at 1:32 (4 oz. per gallon) in a pump up sprayer. Apply to approximately 400 sq. ft. of carpet. Mix 1 ounce Hillyard CLEAN ACTION® II with hot water (not to exceed 150 degrees) in solution tank of extractor and extract carpet. Allow carpet to dry thoroughly before opening to traffic.

B. HD Extraction Cleaner

Mix CARPET PRE-SPRAY at 1:32 (4 oz. per gallon) in a pump up sprayer. Apply to approximately 400 sq. ft. of carpet. Mix 2 ounces Hillyard HD Extraction with hot water (not to exceed 150 degrees) in solution tank of extractor and extract carpet. Allow carpet to dry thoroughly before opening to traffic.

C. Shampooing

Using shampoo machine or rotary system, dilute Hillyard CLEAN RELEASE® according to soil load; light cleaning 1:64; regular cleaning ñ 1:32; renovating heavily soiled carpets ñ 1:16. Immediately after shampooing, pick up foam with wet vac. Vacuum when dry to remove any residue.

SPECIALTY CARPET PRODUCTS

A. Protection

To help prevent soil and stains from penetrating carpets and to make vacuuming easier, apply Hillyard SOIL-STOP® following label directions.

B. Static Control

To control static electricity, apply Hillyard CARPET ANTI-STAT with pump-up sprayer following label directions.

C. Sanitizing

To control malodors and sanitize areas, apply Hillyard CARPET SANITIZER following label directions.

D. Carpet Booster

Non-chlorine, oxygen-based, granular cleaner that brightens colors and removes mild yellowing in carpets. Carpet Booster goes to work immediately and gives carpets a bright, crisp look without the use of optical brighteners. Mix Carpet Booster in an extractor solution tank with Hillyard Clean Action® II or Hillyard HD Extraction, or pre-spray directly on carpet.

NOTE: Not recommended for use on stain-resistant carpets.
