

QUARRY TILE, PAVER BRICK, CERAMIC, SLATE & OTHER NATURAL STONE

NON-GLAZED SURFACES

Preparation After the grout has cured for 30 days, scrub the floor with solution of RENOVATOR® following label directions.

NON-GLAZED SURFACES SEALING/FINISHING

When floor is clean and dry, apply two to three coats of SEAL 341 following label directions. TERRAZZINE® may be used for very porous paver brick and stone. Follow label directions and topcoat with Hillyard SEAL 341.

GLAZED/POLISHED TILE

For glazed or polished tile, porcelain tile or floors where a seal is not recommended or desired, simply maintain with SUPER SHINE-ALL® neutral cleaner.
