

TERRAZZO Portland

NEW PORTLAND TERRAZZO Curing

As soon as the new floor will bear weight, apply one coat of CEM-SEAL® following label directions. Allow overnight dry before permitting traffic.

NEW PORTLAND TERRAZZO Finish Treatment

After final grinding, scrub thoroughly with SUPER SHINE-ALL® Solution. Rinse and let dry.

A. Buffable Program

When floor is clean and dry, apply two coats of ONEX-SEAL II® following label directions.

B. Non-Buffable Program

When floor is clean and dry, apply two to three coats of SEAL 341 following label directions. TERRAZZINE® may be used for extremely porous terrazzo as a sealing option, following label directions.

C. Vertical Surfaces

After final grinding, scrub thoroughly with SUPER SHINE-ALL®. Rinse and let dry. Seal with one or two coats of SEAL 341 following label directions.
