Our Trident Brand of equipment starts from the ground up - at a place where intelligent design intersects with innovative technology and exceptional engineering to deliver superior cleaning equipment. Cleaning equipment that lowers your total cost of ownership, reduces your cost to clean and improves cleaning results. It’s what you expect out of your equipment investment, and it’s what we deliver. We’re Hillyard, The Cleaning Resource, since 1907.

MS2 Mini-Spotter
Portable and lightweight, the MS2 is the convenient and easy-to-use option for spot removal.
- Quickly remove spots in carpet and upholstery.
- Lightweight and portable design makes extraction easy.
- Translucent recovery tank makes it easy to see recovery water level.
- Two-gallon capacity delivers easy cleaning of carpet spots/stains.
- Clear hand tool shows cleaning results.
- 1.16 hp vacuum motor and 55 psi pump provide more cleaning and drying power.

Backpack Vacuums
Backpack vacuums are designed to deliver comfort, maneuverability and productivity. It’s a more natural way for the human body to carry the weight of a vacuum. Centering the weight over the hips and easily maneuvering a 1 lb. wand.

Carpet and Rug Institute Approved
CRI has developed the carpet industry’s only scientific program to test and measure the effectiveness of cleaning products and equipment. The results help consumers make informed decisions when choosing products. For oakleaf, all natural, fieldable and last站着 Everyone benefits Trident EX Series extractors and if it meets weight requirements only the CRI Seal of Approval.

FD15 Floor Dryer
The FD15 is a compact, 3-speed, powerful blower, able to dry surfaces within a very short time. It is ideal to dry carpets cleaned with extraction machines, and it can be used on a wide variety of surfaces. Turn it on and run it without the timer, or set the timer to stop after a selected time period.

ICS17 - Interim Cleaning System

The ICS17 Interim Cleaning System is used with Hillyard Deep Action® in a low moisture encapsulation carpet cleaning process that removes soil while improving the overall carpet appearance; carpet dries in about 20 minutes while reducing water and detergent consumption.

- Two counter rotating brushes to effectively clean and agitate both sides of the carpet nap.
- Counter rotating brushes lift and groom the carpet pile, while the debris bin catches soil and debris.
- Built-in on-board spraying system for increased productivity.

### Interim Cleaning Process
1. Pre-Spray With Hillyard Deep Action
2. Agitate Carpet with the ICS17
3. Allow Carpet to Dry to Touch, Vacuum

### Restorative Extraction Processes

#### Pre-Spray Method
More Dwell Time, Better Results
1. Pre-Treat with Hillyard Carpet Pre-Spray
2. Extract with Hillyard Extraction pH Rinse or Carpet pH Rinse

#### "In-The-Tank" Method
Faster Process, Good Results
1. Extract with Hillyard Extraction pH Rinse

Hillyard Crystalline Encapsulation

Deep Action® is formulated as a multi-dimensional surfactant, acrylic polymer blend, multi-dimensional surfactant, deep action®, formulated as a deep action®, crystalline encapsulation process that removes soil while improving the overall carpet appearance; carpet dries in about 20 minutes while reducing water and detergent consumption.
