This product is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing, and disinfection for hospitals, nursing homes, schools, food processing plants, food service establishments, restaurants, transportation terminals, office buildings, manufacturing facilities, lodging establishments, hotels, retail business, and athletic/recreation facilities, sports stadiums, amphitheaters and convention centers where housekeeping is of prime importance in controlling cross-contamination from treated surfaces.

For use with the Hillyard Arsenal One Dispensing Systems.

Windo-Clean +
A concentrated cleaner for use on surfaces not damaged by water including glass, mirrors, CRT screens, TV screens, office equipment. Dissolves grease, oil, fingerprints, smudges and soils quickly. Not for use on anti-glare treated screens.

SPECIAL INSTRUCTIONS:
When used on office machinery and data processing equipment (computers) or TV screens, always spray on paper towel or clean cloth and then wipe area to be cleaned. Never spray directly on any surface where working office machinery or computer parts would be exposed to this product. DO NOT SPRAY ON FLAT WALL PAINTS OR HOT SURFACES. Do not dispose of in storm drains or streams.
Dilution Control Simplified

At Hillyard, we understand professional cleaning. We know it’s not a “one size fits all” approach. We also know standardization and consistency is critical to delivering clean, healthy buildings in a cost effective manner. That’s why we have developed the Arsenal One Dilution Control System - one refill style dispensed through three dispensing options. Same great formulas. Same color and number coding to simplify training. And, dispensing designed for the way your staff works - helping deliver the cleaning results your stakeholders demand.

Consistent Performance

- Arsenal One delivers the right amount of chemical every time ensuring the product performs as designed.
- Custodians using the “glug-glug” method can mix products either too strong or too weak. Too strong - it can ruin surfaces, create safety hazards, and substantially increase product cost. Too weak - the product doesn’t perform and cleaning results suffer.

Safe and Simple to Use

- Color and number coding across all Arsenal systems simplifies training.
- Arsenal One is a sealed delivery system - minimizing direct contact with concentrated chemicals.

Cost Effective

- Highly concentrated products accurately diluted on site eliminates operator error and guesswork associated with manual “glug-glug” mixing.
- Dramatic cost and space savings when compared to “ready-to-use” products.

Arsenal ONE Savings...

- Less Packaging
- Reduced Transportation
- Less Waste
- Lower Cost

*Arsenal One refills have a range of dilution rates. This example uses Arsenal Jr. Re-Juv-Nal, dilution rate 2 oz. per gallon of water.

2.5L Refill Concentrate* = 172 READY-TO-USE QUARTS!
Simplify Cleaning Processes, Training, and Procurement
One refill style for all of your cleaning chemical needs.

- High capacity 2.5 liter refills strike the right balance for both dedicated wall mount and portable dispensing.
- Sealed, tip-in-bottle dilution eliminates dispenser tip maintenance hassles and ensures accurate dilutions.
- Closed loop technology eliminates spills and direct contact with concentrated chemical.
- With over 107 years of experience formulating high-performance cleaning systems, you can be confident you’re getting the best products to get the job done right!

Put The Hillyard Suprox® PEROXIDE Team To Work For You...
The boosted cleaning power and safety of peroxide in one system for daily cleaning!

- Put four peroxide formulas in one convenient Arsenal One system.
- Perfectly matched dilution rates for each cleaning challenge.
- No. 32 Suprox - D, EPA Registered Disinfectant Cleaner
  No. 37 Suprox - Heavy Duty
  No. 38 Suprox - Multi-Purpose
  No. 39 Suprox - Glass & Floor
- Green Seal™ Certified, Nos. 37, 38, 39

Go Green, Go Arsenal!
It’s the sustainable thing to do.

- Highly concentrated products reduce packaging, warehousing, and transportation requirements, lowering our carbon footprint.
- A range of Green Seal™ certified products are available in Arsenal.

Re-Juv-Nal
For use with the Hillyard Arsenal One Dispensing Systems

Compact Dedicated 4 Product Design
18" Wide x 26.25" Tall x 9" Deep

ASSE 1055B Certified

Locking Cabinet
The locking lid secures the refill. The lock system can be removed during installation.

Stay-In-Place Lid Design
When changing refills, the lid stays up and out of the way until it is closed.

Fill Bottles, Buckets & Scrubbers
Quickly fill bottles. Simply engage the locking, tethered hose to fill buckets and autoscrubbers.

No Assembly, Out-of-the-box Installation
Connect water supply hose and easily mount on wall with included hardware. Four screws is all it takes.

Simple Push Button Operation

Clear Water Access

QR Code Product Information
Full Product Visibility
Easy to see product levels. Labeling on container refills allows flexibility to swap products if needed.

Reinforced Polypropylene Construction
Reinforced polypropylene provides excellent durability and chemical resistance.

Drip Tray with Drainage
6 Ft. Bucket Fill Hose

Easily Replace Hose Screen Filters
Hard water mineral build-up on the hose screens? Easily replace the screens without removing the cabinet from the wall. Arsenal One 4D and QC.

**Re-Juv-Nal 16**

For use with the Hillyard Arsenal One Dispensing Systems:

- **Quick Change Multi-Product Dispensing**
- **Compact Interchangeable 2 Product Design**
  - 14.25" Wide x 18" Tall x 8" Deep
- **ASSE 1055B Certified**
- **Dedicated Slot**
  - Keep one product like disinfectant sanitizer dedicated, in the dispenser 24/7 ready to work.
- **QR Code Product Information**
- **Full Product Visibility**
  - Easy to see product levels. Labeling on container refills allows flexibility to swap products if needed.
- **Reinforced Polypropylene Construction**
  - Reinforced polypropylene provides excellent durability and chemical resistance.
- **Fill Bottles, Buckets & Scrubbers**
  - Quickly fill bottles. Simply engage the locking, tethered hose to fill buckets and autoscrubbers.*
- **No Assembly, Out-of-the-box Installation**
  - Simply attach the water supply hose and easily mount on wall with included hardware. Four screws is all it takes.
- **Simple Push Button Operation**
- **Clear Water Access**
- **Quick Change Slot**
  - Effortlessly slide products in and out of the dispenser. The dispensing dock automatically engages the bottle insert creating a safe, tight connection to deliver accurate dilution rates.
- **6 Ft. Bucket Fill Hose**

**Optional drip tray available. Mounts separately to the wall underneath the dispenser. Item No: HIL99533**

**3 and 4 Product Refill Storage Racks**

*Arsenal One QC includes a small cable that keeps the green bucket fill receiver tethered to the dispenser - not shown.
Portable Dispensing

Save Time
Eliminate back and forth trips to the custodial closet.

- Quick Disconnect
- Locking Trigger
- Bucket Clip
- Ergonomic Handle
- Optional Quick Connect Foaming Head
- Secure, Threaded Connection
- ASSE 1055B Certified, Built-In Backflow Prevention

Fill and Foam
Dispenses the perfect dilution to fill bottles, buckets, scrubbers. Or, use the foaming attachment to apply foaming cleaners.

Dispensing Jug System For “Unconnected” Water Sources

Simply Smart

- Perfect for custodial closets without a water source. Deliver pre-mixed “buddy jugs” to the custodial closet.
- Standardized dilution. One quart bottle to 5 gallon jug.
- MSDS printed right on the label side.

Smart refill design keeps the system safe. The mouth on the quart bottle refill is extra large. This ensures that a user cannot put a trigger sprayer on the bottle of concentrated chemical and mistakenly use it as ready-to-use product.

Arsenal Hil-Pac® Pouches

The benefits of dilution control when dispensers are not an option!

- Portable, mix at any faucet.
- Control inventory with pre-measured packets.
- Improve productivity by reducing trips back to the custodial closet.
