

Overview

The Hillyard Arsenal® MDC dispensing system dilutes concentrated chemicals with water to deliver highly effective cleaning solutions. Select from up to 3 products to fill mop buckets and autoscrubbers at 3.5 gallons per minute. And, select from 4 products to fill spray bottles at one gallon per minute.

MDC is versatile and easy to install. Use the included mounting brackets to position the refill cabinets either vertically or horizontally.

Features

- High-flow and low-flow
- Wide range of dilutions
- E-gap and Air gap availability
- Locking cabinets
- Easy to install
- Optional drip tray
