High Pressure Cleaning
- High Volume Restrooms
- Shower Rooms
- Kitchens
- Heavy Soil Loads

Low Pressure Cleaning
- Daily Restroom Cleaning
- Battery Operated
- Moderate Soil Loads

Variable Angle Spray Pattern
- Use a pinpoint, tight pattern to quickly remove stubborn soils.
- Use a wide fan to rinse and for wide area coverage.

High Pressure System
- 300 psi pump is strong enough to remove heavy, stuck on soils without damaging grout or fixtures.

Pressure Select Gun
- Quickly change pressure at the gun. Safely apply chemical with low pressure rinse and remove soil with high pressure.

Right Flow Rate
- 0.65 gpm flow rate provides the right amount of volume to clean without wasting water. Environmentally preferred.

Cord Electric
- Provides continuous power, eliminating power constraints and charging issues associated with battery systems.

C3 Recovery Unit Specifications

C3XP Specifications

Since using The Hillyard Cleaning Companion, our restrooms are the cleanest they’ve ever been, training is easy, my staff likes the process, and we have saved time and money.

John Dols
Buildings & grounds Director
Kingsland Public Schools
Spring Valley, MN

Microfiber Flat Mop
- Excellent choice for detailing floors when using a low volume solution application strategy for daily cleaning. Also provides an option to detail the floor when a low moisture daily cleaning process is used in a restroom without floor drains.

Onboard Recovery Vacuum
- Efficient vacuum removal for higher volumes of applied solution. Quick drying floors. Ideal when there is no floor drain or slow floor drains.

Microfiber Flat Mop
- Excellent choice for daily cleaning.

Onboard Recovery Vacuum
- Efficient vacuum removal for higher volumes of applied solution. Quick drying floors. Ideal when there is no floor drain or slow floor drains.

Cord Electric
- Provides continuous power, eliminating power constraints and charging issues associated with battery systems.

Right Flow Rate
- 0.50 gpm flow rate provides the right amount of volume to clean without wasting water. Environmentally preferred.

Battery Powered
- Provides the convenience of untethered, go-anywhere cleaning when used without the optional cord-electric vac. Battery meter. Charger included.

C3XP Specifications

Low Pressure System
- 150 psi pump is strong enough to remove light sticky soils without damaging grout or fixtures.

Right Flow Rate
- 150 psi pump is strong enough to remove light sticky soils without damaging grout or fixtures.

Battery Powered
- Provides the convenience of untethered, go-anywhere cleaning when used without the optional cord-electric vac. Battery meter. Charger included.

Cord Electric
- Provides continuous power, eliminating power constraints and charging issues associated with battery systems.

Battery Powered
- Provides the convenience of untethered, go-anywhere cleaning when used without the optional cord-electric vac. Battery meter. Charger included.

Cord Electric
- Provides continuous power, eliminating power constraints and charging issues associated with battery systems.

Clean Better, Clean Faster

More surfaces get more attention.

Improve Outcomes

Manual cleaning is hard, demoralizing work—bending, reaching and scrubbing! It’s the main reason restrooms continue to be the largest source of complaints, and the biggest cleaning headache for facility managers. With traditional, manual methods, surfaces rarely get the thorough cleaning they need, creating unattractive conditions and the perfect breeding grounds for odor-causing bacteria!

Hillyard Cleaning Companions

Making cleaning easier—everyday!

Surfaces in bathrooms, like the undersides of fixtures, partitions and grout lines will finally get the attention they deserve, improving restroom cleanliness, quality, and staff morale.

How Does It Work?

On-board Water

Fresh water is stored in the 10.1 gallon tank.

Chemistry Matched Cleaning

Formulas designed specifically for each application, eliminating cleaning mistakes. Sealed chemical refills are stored in the back of the C3.

Remove Soiled Solution

Remove the soiled solution with the capture that binds crystals, flow props, squeegee, flat mop, onboard vacuum.

Improve Outcomes

Manual cleaning is hard, demoralizing work—bending, reaching and scrubbing. It’s the most visible, most strenuous component of the largest source of complaints, and the biggest cleaning headache for facility managers. With traditional, manual methods, surfaces simply get the thorough cleaning they need, creating unsightly conditions and the perfect breeding ground for odor-causing bacteria!

Hillyard Cleaning Companions
Making cleaning easier—everyday!
Surfaces in bathrooms, like the undersides of fixtures, partitions and grout lines will finally get the attention they deserve, improving restroom facilities, cleaning quality, and staff morale!

How Does It Work?

On-board Water
Drink water is stored in the 1-1/2 gallon tank.

Chemistry Matched Cleaning
Formulated specifically for each and every cleaning when using a pressurized cleaning system. Sealed chemical refills are stored in the back of the C3.
When the application gun trigger is activated, the water and product automatically mix at the specified dilution rate and is applied to the surface being cleaned.

Remove Soiled Solution
Remove the soiled solution with the capture that food and grime. Scrub or soak. On-board vacuum.
