

Clean Release®

HILLYARD
CARPET
SOLUTIONS

A concentrated carpet shampoo formula designed to help get the most cleaning from dry foam carpet cleaning machines. It is perfect for cleaning lightly to heavily soiled carpets quickly and economically.

Features & Benefits

- High-sudsing formula penetrates to the base of carpets.
- Dry foam properties suspend soil making vacuuming easier.
- Restores the natural beauty of carpet fibers.

Directions

1. Place Wet Floor signs in the area to be cleaned.
2. Test for colorfastness and effect on texture on an inconspicuous area before cleaning.
3. Remove furniture and vacuum carpet thoroughly to remove dry soil.
4. Use a nylon shampoo brush on a single brush floor machine. New brushes should be soaked in shampoo solution for 2-3 hours to condition the bristles. Previously used brushes do not require pre-soaking.
5. Dilute according to soil conditions with lukewarm water:
Light cleaning - 2 oz. per gal.
Regular cleaning - 4 oz. per gal.
Heavily soiled - 8 oz. per gal.
6. Shampoo in rows, overlapping slightly with each pass. Scrub corners and other inaccessible areas with hand brush.
7. Immediately after shampooing each area, pick up foam and moisture with a wet vacuum. If necessary, use a carpet rake to set pile.
8. Allow carpeting to thoroughly dry before replacing furniture and opening to traffic. Air blowers will aid in this drying process. When replacing furniture, use leg pads to prevent rust or furniture stains. For upholstery, use brush equipped with foam-type dispenser handle.

Certifications, Registrations & Notes

5th Generation Carpet Safe

Safety

See material safety data sheet and product label for safety information, handling and proper use.
